

Supporting Academic Success with Data from Hope's Incoming Student Survey
Summary of February 25, 2022 Frost Center Friday Discussion and Recommended Action Steps

Who at Hope College (positions or departments) would benefit from the information shared today?

Frost Center Friday handouts were sent to Deans' Council, Provost, President, all Deans asked to share with their chairs and cocurricular program directors, VP for Student Formation to share with student services programs, and post on the Frost Center website.

Thinking about your own work at Hope, how will you use what you've learned today?

Helps us understand our students and invest our resources where we can have the greatest impact; we need to encourage our students to attend campus events; tutors need to know this as well as other students who work with incoming students; first year course instructors and orientation staff can use this information to understand incoming students.

How might data from this survey continuously inform decisions for the benefit of our students?

Share and use these data widely and allow staff and faculty to use the data to make decisions that then benefit Hope students; use this information in cocurricular program development; using these data helps us reach our aspirations of being a top, liberal arts Christian College; these data inform training of our student leaders.
